MOERAES FATE

Great music spans decades. And even though these ladies have lived less than 2 decades, their music feels timeless. Listen and let Katee, Allie and Kayla (the spitfires of Moeraes Fate) surprise you with their unique sound.

Although frequently compared to legendary bands such as Rush, Led Zeppelin, Pink Floyd and Pearl Jam, there's nothing quite like the "no-holds-barred...kickass progressive aggressive rock" of Moeraes Fate. On the strings, the fingers of skilled guitarist Ali Stead gives birth to chugging brutal hard riffs and yet at the same time pulls from her instrument some of the the most beautiful and delicate melodies ever heard in hard rock. Heavy hitting Kayla Faye brings you back to earth with a crash of her cymbals. Her life's lessons learned sound out strength with every hit of her sticks. Trained by the best, she brings a heart beat to their sound. Perhaps the band's best kept secret is it's most deadly. The dark whiskey voice of Katee Lee possesses you with her "powerhouse bass and vocals". There's no one else that sounds even close to her in music today (George Stroumboulopoulos raves, "...this girl can sing"). She slays with cadence as she slips easily through big chorus' and leaves fans screaming for more. All of this from 3 young women under 18 years of age? Progressive, aggressive, young and inspired. Moeraes Fate.
