

Motorpunx

BAND STORY

"

Bay Area based Motorpunx is a frosty brew of rockabilly, psychobilly, punk, surf, and blues that'll crush your jaw. We're a heavy groove-oriented sound of wrenching molten tread.

The full length CD, "This and That," is available at an economy-friendly price, as well as shirts, stickers, and buttons!

The Motorpunx features Gabe Gossack on guitar, Justin Sane Illges on drums, Ron Fulton on the bass, and Martin Roberson on lead vocals and harmonica. They are all veterans of various well-known bands such as The Defiant Ones, The Forgotten, The Blanks, Bad Neighbor, Hummer and Hectic Sausage—all of which are West Coast favorites.

The lead singer, Martin is the proprietor of Lucky Stars tattoo shop and much of our kick-**** swag can be purchased there along with some incredible ink!

Stay-tuned for our 2011 schedule.

New Songs from Motorpunx

Hey All,

We wanted to let you know that Motorpunx took some time
to blast out a few new songs at the Art of Ears studios! We
need to thank Andy "Andro" Ernst - who has recorded great
bands such as Green Day, Good Riddance, AFI, Rancid (to
name only a small few of his accolades) for capturing
that raw live sound that Motorpunx generates and put down
on digital. We melted the windows and scorched the
carpents, and it felt good to record again.

While currently an untitled EP, we wanted to get out a few
tunes for you, in hopes that you rock em as hard as we do!
We have more on the board, so it's likely we'll move forward
with an LP and videos to match. UNTil then - Enjoy - and
we'll see you at the shows!
